Gloria

As you may be aware; I have been using this spot in the bulletin to walk through the Mass. The next part of the Mass is the Gloria, which is sung or recited with great joy! This hymn was sung by the angels at the birth of our Savior, Gloria in excelsis Deo. When this part comes up in Mass, please take the time to pay attention. I understand that it’s very easy to be on autopilot. Instead, think about how your voices are joining with the angels in giving Glory to God. The Gloria gives praise and glory to each distinct Person of the Holy Trinity, Father, Son and Holy Spirit. It may help when we recite the Gloria to look at each verse and see which person of the Trinity is being glorified.

Fr. Chris will be in the St. Anthony Church office on Tuesdays and Thursdays.
He will be in the Sacred Heart Church office on Wednesdays and Fridays.

SCIENTISTS GROW HUMAN EMBRYOS TO CONDUCT EXPERIMENTS

A shocking new report indicates scientists have found a way for human embryos to live outside the womb for 14 days, which is a record, so they can be experimented on for a longer period of time.

Dr. David Prentice, the Charlotte Lozier Institute Director of Research, said “No human being should be used for lethal experimentation, no matter their age or stage of development… The deadly research on young human embryos has yielded no benefit thus far, meanwhile morally unproblematic means are delivering treatments and even cures for some of the most pressing health issues of our day… Congress ought to have a full and open debate on the issue of human embryo research before the research community moves further without oversight.” (www.LifeNews.com)
